Objective

To leverage my strong academic foundation in Computer Science, coupled with my passion for technology and innovation, to contribute effectively to a dynamic organization, while continuously expanding my knowledge, skills, and expertise.

Education

Al-Ahliyya Amman University

2021 - 2025

Bachelor of Science in Computer Science.

- Achieved a GPA of 3.71 out of 4.00, surpassing the threshold for excellence.
- Maintained a strong academic record, consistently ranking among the top students in my cohort.
- Actively engaged as a member of both the AAU IT Club and the Data Science & AI Club.

Project Achievements

Coursework projects and continues tasks

Throughout my academic journey, I have completed a variety of projects and ongoing tasks that have enhanced my skills and knowledge in computer science. Some notable examples include:

- Find the Shipwreck: Developed during my second semester of sophomore year, Find the Shipwreck is a terminal-based game that served as a practical demonstration of my proficiency in Data Structures. This project involved implementing various data structures and algorithms learned in the course using Java, such as linked lists and arrays. The project received praise for being a commendable achievement.
- University Gate: Created as a part of the Web Application Development 2 course in my first semester of junior year, it is a comprehensive web application designed to serve as a university portal. Utilizing ASP.NET MVC, I demonstrated proficiency in backend development, database integration, and user interface design. This project garnered significant attention within the college community for its innovative features, intuitive user experience, and reaching a semi-system level. The instructor named it: "Project of the course."

For more details and to view the code for these projects, please visit my GitHub repository or portfolio.

Skills

- **Technical Skills:**

HTML – CSS – Bootstrap – JavaScript – TypeScript – React – Node.js – Java – C# – .NET core – Git – MySQL

- **Soft Skills:**

Project management – Decision-making – Leadership – Problem-solving – Teamwork – Creativity – Interpersonal skills – Willingness to learn – Embracing innovation – Honesty

Languages

- Bilingual in Arabic & English: Proficient in both due to upbringing and academic experiences.
- Limited working French: Currently at B1 level, actively improving my language skills.
